

# Association of Independent Retirees (A.I.R.) Limited

ACN 102 164 385

*15<sup>th</sup> National Conference 8-11 November*

*Launceston 2010 - "Yes, We Can!"*

## ***From the Conference Organiser's Desk***

Very soon we will be able to release confirmed programme details with the names of some of our presenters. Our theme is Active Retirement and we aim at our conference to reinforce that retirement is a new phase of life to be enjoyed. Our logo is "Yes, We Can!". Yes, we as retirees can be active, healthy and independent; Yes, A.I.R. as an organization can continue, thrive and be successful and with the help of the 'Baby Boomer' generation who have recently retired or will soon retire, continue the work that was started in 1990 when the Association was first formed.

There will be a few different and new initiatives for this conference such as 'Early morning rise and shine' in the City Park, two lifestyle streams and an end of day session called 'Taste of Tassie'. Music and comedy will feature in our Opening Ceremony, Welcome to Launceston Function and Conference Dinner. We are working on expo type inter-active display booths to provide a wide range of interesting hands-on information and services to our delegates.

A reminder the early bird registration fee is \$220 up to 31 August and it is pleasing to advise that our first registrations have been received. The conference committee is working hard to encourage sponsors to generously donate or assist us with refreshments and other goodies to add additional value for registration participants. Full details of registration and how to pay are on the web page.

At the time of writing this article, air fares from Melbourne to Launceston are as low as \$79 (with luggage) so please plan your visit to Tasmania NOW and take in the conference and a few days sightseeing in and around Launceston City.

***Yes we can make the 2010 Conference one to remember!***
